12-19-03 Case Management Minutes

The special meeting of the management committee was called to consider modifications of the prior case management orders.

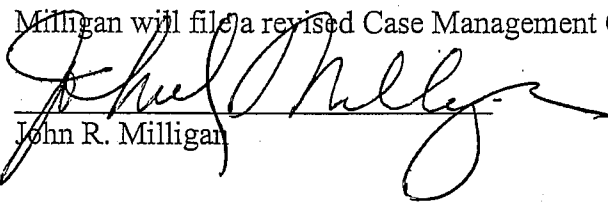

Present: Friedlander, Sesek, Zahirsky, Balmert, Rosin, Ania, Wilson, Bevan, Steinhaurer, Milligan.

It was generally agreed that the number of cases and/or the dates should be modified to allow appropriate pretrial preparation.

Objections to videotaping were renewed. Parties were advised the court would rule on the issue after December 22, 2003.

Milligan agreed to contact the Court of Appeals and Supreme Court re record adequacy of master file filings, with only reference on the docket of specific cases. (Milligan has done this and will advise.)

Milligan will file a revised Case Management Order ASAP.
